Longfellow. This is the best main crop bean for the market gardener. It pro-
duces a heavy crop of extra long, straight, round pods. Although the quality is not as good as that of the Stringless Green Pods, it has proven to be a much better seller on the market on ac-
count of the superior appearance of the pods. Price, qt., 25c; peck, $1.40; bushel, $5.50.

Stringless Green Pod. A bean of extra good quality. The round green pods are en-
tirely stringless and when well advanced in growth retain their crispness and break easily. It is the best bean for conserving and gar-

uniform in shape, color and quality. An A1 table beet. Oz., 10c; ¼ lb., 35c; lb., $1.20.

Early Eclipse. Handsome, smooth, turnip shaped beet of good quality. One of the earliest and a good beet for bunching. Oz., 10c; ¼ lb., 30c; lb., $1.00; 5 lbs., $4.50.

Mangel - Wurzel

Mangels or Cow Beets make one of the best winter feeds for dairy cows or young stock. Their culture is very easy and on good soil they will often yield over 1,000 bushels an acre. As a milk producer the Mangel comes near the head of the feed list. Grow 6 pounds to the acre in May or June in rows 2 feet apart and thin the plants when about 3 inches high to 3 to 6 inches in the row.

Nobleton Giant. Similar to Mammoth Long Red. Same price.

Golden Tankard. A very popular variety of excellent quality. Flesh a deep, rich yellow very sweet and nutritious. Shape a little shorter than the Long Red but thicker. Easily pulled. A very heavy yielder. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Yellow Eckendorf. This variety comes from Germany, where it is more planted than any other sort. The roots are of about the same shape as the Golden Tankard, but more chunky and get considerable larger, oftentimes weighing as much as from 15 to 25 lbs. apiece. Grow largely above the ground and are easily pulled. Flesh, pure white, skin deep yellow. An excellent sort. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Yellow Globe. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Sugar Beets

Sugar Beets are not as heavy yielders as the Mangels, but are of superior quality. Our seed comes from the best European growers and the sugar percentage has been improved as much as possible. Culture same as Mangels.

Klein-Wanzleben. This is one of the best sugar beets and most largely grown. The root is conical, straight and even. While the yield is not quite as heavy as from the largest Mangels, the quality of the beet is so much better that every dairy farmer should plant liberally of this fine sort. Oz., 5c; lb., 40c; 5 lbs., $1.80.

French Red Top Sugar. A heavy cropper and of good quality. Ripens early. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Lance’s Imperial. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Vilmorin’s Improved. Oz., 5c; lb., 40c; 5 lbs., $1.80.

Broccoli

Early Purple Cape. A variety with greenish-purple heads of good flavor. Pkt., 10c; oz., .30c; ¼ lb., $1.00.

White Cape. Heads of medium size, close and compact; of a creamy white color. A reliable head variety. Pkt., 10c; oz., .30c; ¼ lb., $1.00.

Brussel Sprouts

Paris Market. Produces sprouts of good quality. Sprouts medium sized, but very solid and keep well. Pkt., 5c; oz., .15c; ¼ lb., .50c.

Dwarf Improved. Pkt., 5c; oz., .15c; ¼ lb., 40c; lb., $1.25.

Cabbage

Pure and Sure-to-head Seed. 1 oz. produces about 2500 plants. Six of the best first early, stock runs very uniform. Pkt., 5c; oz., .20c; ¼ lb., .60c; lb., $2.00.

Early York. A superior early heading sort. Heads pointed, compact and very solid. May be planted closely. Pkt., 5c; oz., .15c; ¼ lb., 40c; lb., $1.50.
Early Spring. This variety is nearly as early as the Jersey Wakefield, but the heads are of the round, flat type, like Early Summer. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., $2.00.

Second Early Varieties

Sluis' Allhead Early. Our strain of this variety runs very uniform and is selected every year with the greatest care. The heads are flattish round and very solid. The plants grow compact and may be planted closely. As a main crop variety the Allhead is one of the best. Price, pkt., 5c; oz., 25c; 1/4 lb., 75c; lb., $2.50; 5 lbs., $12.00.

Henderson's Early Summer. A popular variety with market gardeners. About two weeks later than Wakefield, rather larger and globe-shaped. Does not burst readily. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., $2.00.

All Seasons. An early, sure heading, solid variety. Desirable for early or fall use. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., $2.00.

Other Good Second Early Varieties

In 5 pound lots, 10 cts. per lb. less.

Sluis' Glory of Enkhuizen. We consider this the best large early cabbage in existence. Comes in at about the same time as Charleston Wakefield, Early Spring or similar extra early varieties, but the heads are perfectly round, very solid and large, oftentimes weighing as much as 10 to 12 pounds. It grows very dwarf and compact with only a few outer leaves, thus permitting a close planting. It is a better cropper than any other early cabbage and the quality is second to none. Although this cabbage is comparatively new yet, it has taken the lead already and we sell more seed of this variety than of any other kind. The seed we offer is imported by us direct from Enkhuizen, Holland, the place where it originated and may be depended upon to be as true as any body can possibly sell it. Price, pkt., 5c; oz., 20c; 1/4 lb., 70c; lb., $2.50; 5 lbs., $12.00.

Messec. Cates Bros., East Vassalboro, Maine, wrote us under date of Nov. 12, 1911 'Replying to yours of the 8th inst. will say, that the Glory of Enkhuizen Cabbage proved to be by far the best of anything we have ever raised for an early cabbage. They came right along with the Early Spring, weighed two and three times as much per head and were of much better quality. From one patch of 1,400 plants we took $149.00.'

Copenhagen Market. Gardeners who have grown this cabbage the last couple years are well pleased with it. It is a large, very solid, round heading sort, and comes in as early as the Charleston Wakefield, when sown and planted out at the same time. We can recommend this kind for summer use. Pkt., 10c; oz., 35c; 1/4 lb., $1.25; lb., $4.50.

GOOD Cabbage seed can not be bought at a bargain. By sowing our seed you are reasonably sure, that you will have the right stock, and our prices are right, quality considered.

Late or Winter Varieties

Premium Late Flat Dutch. Excellent sort, heads large and solid, short stemmed. A popular sort with gardeners that grow for kraut factories. Very best seed. Price, pkt., 5c; oz., 25c; 1/4 lb., 60c; lb., $2.00; 5 lbs., $9.00.

Danish Ballhead. Tall stemmed. Heads very solid. One of the best late cabbage for storing purposes, as its keeping qualities are unsurpassed. Our seed comes from one of the most reliable Danish growers. Price, pkt., 5c; oz., 25c; 1/4 lb., 75c; lb., $2.50.

Holland Short Stem. This kind is rather similar with the Ballhead, only it has a short stem. A fine keeper. This kind is mostly grown in the great cabbage districts of Wisconsin, Michigan, Illinois and Indiana. Our seed may be depended upon up to be first class. Pkt., 5c; oz., 25c; 1/4 lb., 90c; lb., $5.00.

Davis Perfect. This is the best cucumber for the market. It is a selection of the Long White Spine, and has all the good qualities of that variety, but in a much higher degree. The shape is ideal—long, slim and perfectly straight—the color is dark glossy green and the flesh is brittle and tender with a small seed capacity. It is a strong grower and seems to resist the cucumber disease better than any other variety. Our stock of this variety is extra fine and is selected every year with great care, only the most perfect cucumbers being used for seed. Pkt., 5¢; oz., 10¢; ¼ lb., 30¢; lb., $1.00.

Pansies do best in fresh soil, enriched with thoroughly decomposed manure. As a fertilizer we recommend a solution of Nitrate of Soda (1/2 lb. to a gallon of water); the results will be surprising.

Begonias—Tuberos Rooted

Begonias are indispensable for shady places, and every garden possesses one or more shady spots. May be planted out of doors after part of May. Started in the house during March and April, the first flowers will appear in June and increase with the season, the plants attaining their height of perfection just before frost sets in. Keep constantly moist.

Caladium Esculentum

Elephant’s Ear

One of the most beautiful and effective plants for the lawn or flower border. Very easy to grow. To obtain the best result it should be planted in rich garden soil. It wants a place where it can obtain plenty of water.

Extra Large Bulbs, each, 15¢; 3 for 40¢; doz., $1.50; per 100, $11.00.

First Size Bulbs, each 12¢; 3 for 30¢; doz., $1.10; per 100, $8.50.

Second Size Bulbs, each, 10¢; 3 for 25¢; doz., 90¢; per 100, $7.00.

Excelsior, Double Pearl. Large flowering bulbs. Spikes 2 to 3 feet high, with large and very double flowers. Doz., 40¢; 100, $2.00; 1000, $15.00.

The latest creations, the finest varieties in beauty, grace, dazzling colorings of flowers, which are exquisitely striped and spotted, rich in various hues, soft, yet brilliant—all these charms, coupled with their easy culture have marked them the most popular of all summer bedding plants.

Lilies.

The Lily, with eminent propriety, has been styled the “Queen of Flowers,” and no flower is more expressive of the idea of brilliant beauty and faultless purity than the lily. Their culture is simple, and with little care success is certain. They should be planted in the spring as soon as frost is out of the ground; in a well-drained spot, dig the soil deep, enrich it well, adding a liberal supply of sand. Set bulbs 4 to 6 inches deep. A bed once established should not be disturbed oftener than once in four or five years.

Longiflorum. Very like Lilium Harrisii, and preferred by some to that variety. It does not come into bloom as early, but the flowers are of better substance and extensively used by florists for cut flowers. When grown in open ground it blooms in June and July. Each, 15¢; 3 for 35¢.

Auratum. The glorious gold-banded Lily of Japan, and one of the grandest plants in cultivation. Its immense, ivory flowers are thickly studded with yellow and crimson spots, while in the center of each petal is a gold band, fading at the edges into white. Each, 15¢; 3 for 35¢.

Speciosum Album. Pure white flowers with greenish band through the center of each petal; they are of great substance and very fragrant. Each, 20¢; 3 for 50¢.

Speciosum Rubrum. White, shaded and spotted with rose or crimson. Each, 15¢; 2 for 25¢.

Lawn Grass Seed

Sluis' Evergreen Lawn Grass Seed

When seeding a lawn, do not consider using any seed but positively the very best. It will cost you a little more, but in the end it is most economical and satisfactory. Weeds come too plentiful without sowing them. Our Evergreen Lawn Seed is made of the very fanciest, purest, cleanest grades of grasses, for which we have to pay the highest prices, and the results it produces proves its quality. Other conditions, however, are of great importance—proper preparation of the soil, evenness in seeding and the absence of any manure that contains weed seeds.

To get quick results, namely, a thick velvety, green sod, sow the seed thickly, about 1 pound to every 300 square feet. **Prices:** per lb., 25c; 5 lbs., $1.00; 25 lbs., $4.50; 100 lbs., $17.50; delivered free within the city limits.

**SHADY NOOK LAWN SEED.** Composed of more hardy grasses. Has given excellent satisfaction in the past. **Per lb., 25c; 5 lbs., $1.00.**

**GOOD MIXED LAWN SEED.** Fresh seed, sure to grow. **Per lb., 15c; 5 lbs., 75c; 25 lbs., $3.25; 100 lbs., $13.00.**

**LAWN FERTILIZER.** Best lawn dressing on the market. Perfectly odorless. **5 lbs., 20c; 10 lbs., 35c; 20 lbs., 60c; 50 lbs., $1.25; 100 lbs., $2.25.**

**PULVERIZED SHEEP MANURE.** Guaranteed to be free from weed seeds. Will do your lawn a whole lot of good. **Per 100-lb. sack, $1.25.**
